

Pines Winterfront Thermostat for Duesenberg, Packard & More

\$375.00
J-4104-1

Shutter thermostat to fit Duesenberg, Packard, Pierce Arrow and others. This thermostat has been rebuilt and is ready to install - guaranteed to work perfectly. This item is sold on an exchange basis only.

Pines Winterfront Thermostat for Stutz DV-32 and SV-16

\$315.00
MISC-0089

Shutter thermostat to fit Stutz DV-32 and SV-16. This thermostat has been rebuilt and is ready to install - guaranteed to work perfectly. This item is sold on an exchange basis only.

Pines Winterfront Thermostat Gasket

\$8.00
J-4105
Pines Winterfront thermostat gasket.
OD: 4.00; ID: 3.00

Pines Winterfront Thermostat Internal Lever

\$8.00
J-4120-3

Connects thermostat to shutter lever shaft. Precision laser cut for tight fit on pin, our part number J-4121.

Material: 302 SS; OAL: .600;
Thickness: .100; Pin Hole: .190; Shaft hole: Double flat .260 x .312; Hole center: 1.062

Pines Winterfront Thermostat Spacer Washer

\$4.00
J-4120-6

Spacer washer for use with Pines Winterfront shutter thermostats.

Material: Brass; ID: .316; OD: .687;
Thickness: .172

Pines Winterfront Thermostat Cover

\$132.00
J-4120

Pines Winterfront Shutter Thermostat cover - cast in bronze, fully machined and ready to install. This cover replaces the original cast iron cover. Designed for use with cars using Pines Shutterstats, such as: Packard, Duesenberg, Stutz and many more.

Pines Winterfront Thermostat Cover Packing Nut

\$20.00
J-4120-01

Nickel plated brass nut keeps the packing tight on the shaft (Part #J-4121). Has 3/4 hex and 5/8-18 thread.

Pines Winterfront Thermostat Cover Packing Spring

\$7.00
J-4120-04

Fits between the packing nut (Part #J-4120-01) and the sealing shaft (Part #J-4121) to keep the packing firmly compressed.

Pines Winterfront Thermostat Crank Arm Pin

\$32.00
J-4121

Stainless steel shaft with flats to link the thermostat bellows levers to the shutter operating lever. Has 1/4-28 thread on the end.

Pines Winterfront Thermostat Flange

\$79.00

P-0005

Made of steel and designed to be soldered into the upper radiator tank.

3.989" OD, 2.970" ID.

Pines Winterfront Thermostat Operating Rod

\$16.00

J-4117

Cadmium plated steel rod with 5/16-24 thread on each end. Fits through the lever on the thermostat and screws into the yoke (Part #J-4116).

Measures 13 3/16".

Packard V-12 Thermostat Flange

\$90.00

P-0051

Steel flange designed to be soldered into the upper radiator tank. For use on 1938 Packard V-12, may also fit other years.

Material: Steel; Finish: Natural; Base OD: 4 3/8; Base ID: 3 5/16; Top OD: 3.215; Top ID: 3.060; Height: .823

Pines Winterfront Thermostat Operating Rod Yoke

\$26.50

J-4116

Special bronze yoke to operate the shutter linkage.

Packard V12 Thermostat Flange (Alternate Shape)

\$125.00

P-0051-B

Pines Winterfront thermostat steel flange. Designed to be soldered into the upper radiator tank. For use on 1938 Packard V12. May also be compatible with other years.

This is the alternate shape of our part number P-0051 and does not include the flat across one side of the outer diameter.

Pines Winterfront Thermostat Stud

\$25.00

J-4120-05

Brass stud to connect the thermostat bellows to the operating levers.

Material: Steel; Finish: Natural; Base OD: 4.3750; Base ID: 3.3125; Top OD: 3.215; Top ID: 3.060; Height: .823

Pines Winterfront Thermostat Lever

\$79.00

J-4120-02

This is the crank arm which fits on the thermostat shaft. Has a pivoting center piece for the operating shaft. Made from cadmium plated steel and brass.

Pines Winterfront Thermostat Tag

\$18.00

TAG-0013

New tag with black background for use on Pines Automatic Winterfront Thermostats.

Packard Radiator Shutter Rivet

\$2.00

P-0034

Brass radiator shutter rivet for use with all Packards from the 1920's through the 1940's using shutterstats.

1930-31 Cadillac Brass Radiator Shutter Rivet

\$3.75

CAD-0001

Shutter rivet for use with 1930-31 V-8, V-12 and V-16 Cadillac. Duplicate of original stepped rivet to attach radiator shutters to linkage. Cadillac group number 6.1382, part number 58047.

Semi tubular brass rivet; .125 shank small Dia.; .179 shank large Dia.; 5/16 head

Flexible Graphite Packing 1/8 DIA.

\$5.00

MISC-0010

Square braided flexible graphite compression packing. Outstanding sealability and chemical resistance. For use on centrifugal pumps. Measures 1/8 Dia. Sold by the foot.

Coolant Hose

Various

Various

Blended rubber coolant hose reinforced with polyester cord for use on antique & classic cars. Designed for low pressure applications. Hose is black with a green stripe and is sold by the foot. For use with ethylene glycol and water. Many sizes available - call for information.

Duesenberg J Pines Winterfront Shutter Spring

\$7.00

J-4114

Pines Winterfront shutter spring for use on Duesenberg Model J.

Material: Spring steel; Coils: 46.5; Wire size: .056; OD: .497; Free length: 2.551; OAL: 3.561; Hook ID x point to outside: .278 x .300
